***Conversation Starters:** Given my financial situation, should I choose an investment advisory service? Why or why not? How will you choose investments to recommend to me? What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?*

Item 3 - Fees, Costs, Conflicts and Standard of Conduct

What Fees will I Pay?

Fees and costs affect the value of your account over time. Giraffe Invest, Inc., charges a management fee based on a percentage of assets under management. You pay our asset management fee even if you do not buy or sell and whether you make or lose money during the billing period. Fees accrue daily and are debited quarterly in arrears. Giraffe Invest, Inc. has a fiduciary duty to manage an account in a cost-effective manner and considers custodian fees, account maintenance fees, and other fees when making investment recommendations.

What are your legal obligations to me when acting as my investment adviser?

As an investment adviser, we always have a fiduciary duty to act in your best interest.

How else does your firm make money and what conflicts of interest do you have?

Giraffe Invest, Inc. does not offer proprietary products, receive payments from third parties for investment advice, participate in a revenue sharing agreement or conduct principal trading. The more assets you have in an advisory account, the more you will pay us. We therefore have an incentive to grow the assets in your account to increase our advisory fees. Additional information about conflicts of interest are available in our ADV 2A.

How do your financial professionals make money?

Financial Professionals are compensated based on a percentage of assets under management. The percentage charged is based on the scope and complexity of your account, the amount of time and expertise required as well as the account value. Financial Professionals can also make money by providing financial plans or hourly consulting.

Item 5 - Additional Information

You could also open a brokerage account with a broker/dealer, where you pay a transaction-based fee, generally referred to as a commission, when the broker/dealer buys or sells an investment for you. With a broker/dealer, you can select investments, or the broker/dealer may recommend investments for your account, but the ultimate decision to buy or sell will be yours. A broker/dealer must act in your best interest and not place its interests ahead of your interest when recommending an investment or an investment strategy involving securities. When a broker/dealer provides any service to you, the broker/dealer must treat you fairly and comply with a number of specific obligations. Unless you and the broker/dealer agree otherwise, the broker/dealer is not required to monitor your portfolio on an ongoing basis. If you were to pay a transaction-based fee in a brokerage account, the more trades in your account, the more fees the broker/dealer charges you. Consequently, the broker/dealer has an incentive to encourage you to trade often. You can receive investment advice in either type of account, depending on the fee structure you prefer.

***Conversation Starter:** Who is my primary contact person? Is he or she a representative of an investment adviser or a broker-dealer? Who can I talk to if I have concerns about how this person is treating me?*
